SAFETY DATA SHEET

1. Identification
Product identifier 1240 AcryShield Exterior 100% Acrylic Flat Paint Stock Colors (14 23 27 36 178 407 417 9020 9021)
Other means of identification
Recommended use Architectural Coating
Recommended restrictions None known.
Manufacturer/Importer/Supplier/Distributor information
   Company name Kelly-Moore Paint Co., Inc.
   Address 987 Commercial St., San Carlos, CA 94070
   Telephone 1-800-874-4436
   E-mail TAlvarez@kellymoore.com
   Contact person Tiffany Alvarez Gonda
   Emergency phone number CHEMTREC: 1-800-424-9300

2. Hazard(s) identification
Physical hazards Not classified.
Health hazards Sensitization, skin Category 1
OSHA defined hazards Not classified.
Label elements

All concentrations are in percent by weight (kg) unless ingredient is a gas. Gas concentrations are in percent by volume (l).
### 4. First-aid measures

**Inhalation**
- If breathing is difficult, remove to fresh air and keep at rest in a position comfortable for breathing. Call a physician if symptoms develop or persist.
- Remove contaminated clothing immediately and wash skin with soap and water. In case of eczema or other skin disorders: Seek medical attention and take along these instructions.

**Skin contact**
- Rinse with water. Get medical attention if irritation develops and persists.
- May cause an allergic skin reaction. Dermatitis. Rash.

**Eye contact**
- Rinse with water. Get medical attention if irritation develops and persists.
- May cause an allergic skin reaction. Dermatitis. Rash.

**Ingestion**
- Rinse mouth. If ingestion of a large amount does occur, call a poison control center immediately.

**Most important symptoms/effects, acute and delayed**
- Delayed symptoms/effects, may cause an allergic skin reaction.

**Indication of immediate medical attention and special treatment needed**
- Provide general supportive measures and treat symptomatically. Keep victim under observation.
- Symptoms may be delayed.

**General information**
- Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Wash contaminated clothing before reuse.

### 5. Fire-fighting measures

**Suitable extinguishing media**
- Extinguish with foam, carbon dioxide, dry powder or water fog.

**Unsuitable extinguishing media**
- Do not use water jet as an extinguisher, as this will spread the fire.

**Specific hazards arising from the chemical**
- During fire, gases hazardous to health may be formed.

**Special protective equipment and precautions for firefighters**
- Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
- Selection of respiratory protection for firefighting: follow the general fire precautions indicated in the workplace.

**Fire fighting equipment/instructions**
- Move containers from fire area if you can do so without risk. Use water spray to keep fire-exposed containers cool.

**Specific methods**
- Use standard firefighting procedures and consider the hazards of other involved materials.

**General fire hazards**
- No unusual fire or explosion hazards noted.

### 6. Accidental release measures

**Personal precautions, protective equipment and emergency procedures**
- Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Avoid breathing mist or vapor.
- Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. Avoid inhalation of vapors and contact with skin and eyes. Wear appropriate personal protective equipment (See Section 8). For personal protection, see section 8 of the SDS.

**Methods and materials for containment and cleaning up**
- This product is moderately soluble in water. Should not be released into the environment.
- Large Spills: Absorb in vermiculite, dry sand or earth and place into containers. Stop the flow of material, if this is without risk. Prevent entry into waterways, sewer, basements or confined areas. Following product recovery, flush area with water.
- Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.
- Never return spills to original containers for re-use. Dike the spilled material, where this is possible. Put material in suitable, covered, labeled containers. For waste disposal, see section 13 of the SDS.

**Environmental precautions**
- Prevent further leakage or spillage if safe to do so. Do not contaminate water. Avoid discharge into drains, water courses or onto the ground.

### 7. Handling and storage

**Precautions for safe handling**
- Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Wash thoroughly after handling.
- Observe good industrial hygiene practices.

**Conditions for safe storage, including any incompatibilities**
- Store in tightly closed original container in a dry, cool and well-ventilated place. Store away from incompatible materials (see Section 10 of the SDS).
8. Exposure controls/personal protection

Occupational exposure limits

<table>
<thead>
<tr>
<th>US. Workplace Environmental Exposure Level (WEEL) Guides Components</th>
<th>Type</th>
<th>Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>Diphenyl ketone (CAS 119-61-9)</td>
<td>TWA</td>
<td>0.5 mg/m^3</td>
</tr>
</tbody>
</table>

Biological limit values
No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls
Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

Individual protection measures, such as personal protective equipment

Eye/face protection
Use safety glasses, goggles, or face shield to protect eyes.

Skin protection
Hand protection
Wear appropriate chemical resistant gloves. Suitable gloves can be recommended by the glove supplier.

Skin protection
Other
Wear suitable protective clothing.

Respiratory protection
In case of insufficient ventilation, wear suitable respiratory equipment.

General hygiene considerations
Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.

9. Physical and chemical properties

Appearance
Milky white to colored liquid.

Physical state
Liquid.

Form
Liquid.

Color
Various.

Odor
Slightly ammoniacal.

Odor threshold
Not available.

pH
7 - 10

Melting point/freezing point
Not available.

Initial boiling point and boiling range
Not available.

Flash point
Not available.

Evaporation rate
< 1 (n-BuAc=1)

Flammability (solid, gas)
Not applicable.

Upper/lower flammability or explosive limits

Flammability limit - lower (%)
Not available.

Flammability limit - upper (%)
Not available.

Explosive limit - lower (%)
Not available.

Explosive limit - upper (%)
Not available.

Vapor pressure
Not available.

Vapor density
> 1 (Air=1)

Relative density
Not available.

Solubility(ies)
Solubility (water)
Moderately soluble

Partition coefficient (n-octanol/water)
Not available.
Auto-ignition temperature | Not available.
---|---
Decomposition temperature | Not available.
Viscosity | Not available.
Other information
Explosive properties | Not explosive.
Oxidizing properties | Not oxidizing.
VOC | 44.33 - 49.25 g/L

10. Stability and reactivity
Reactivity Chemical | The product is stable and non-reactive under normal conditions of use, storage and transport.
stability Possibility of hazardous reactions | Material is stable under normal conditions.
Conditions to avoid | Contact with incompatible materials.
Incompatible materials | Strong oxidizing agents. Strong acids.
Hazardous decomposition products | Carbon oxides. Metal oxides.

11. Toxicological information
Information on likely routes of exposure
Inhalation | Prolonged inhalation may be harmful.
Skin contact | May cause an allergic skin reaction. Prolonged or repeated contact may dry skin and cause irritation.
Eye contact | Direct contact with eyes may cause temporary irritation.
Ingestion | May cause discomfort if swallowed.
Symptoms related to the physical, chemical and toxicological characteristics | Exposure may cause temporary irritation, redness, or discomfort. May cause an allergic skin reaction. Dermatitis. Rash.

Information on toxicological effects
Acute toxicity | Ingestion may cause irritation and malaise. In high concentrations, vapors and spray mists are narcotic and may cause headache, fatigue, dizziness and nausea.
Skin corrosion/irritation | Prolonged or repeated contact may dry skin and cause irritation.
Serious eye damage/eye irritation | Direct contact with eyes may cause temporary irritation.
Respiratory or skin sensitization
Respiratory sensitization | Not a respiratory sensitizer.
Skin sensitization | The product contains a small amount of sensitizing substance which may provoke an allergic reaction among sensitive individuals.
Germ cell mutagenicity | No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.
Carcinogenicity | Inhalation of carbon black or titanium dioxide dust may cause cancer, however due to the physical form of the product, inhalation of dust is not likely. Diphenyl ketone has caused cancer in laboratory animals, however the relevance of this to humans is unknown.

IARC Monographs. Overall Evaluation of Carcinogenicity
Carbon black (CAS 1333-86-4) | 2B Possibly carcinogenic to humans.
Diphenyl ketone (CAS 119-61-9) | 2B Possibly carcinogenic to humans.
Titanium dioxide (CAS 13463-67-7) | 2B Possibly carcinogenic to humans.

NTP Report on Carcinogens
Carbon black (CAS 1333-86-4) | Known To Be Human Carcinogen.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1053)
Not listed.

Reproductive toxicity | This product is not expected to cause reproductive or developmental effects.
Specific target organ toxicity - single exposure | Not classified.
Specific target organ toxicity - repeated exposure | Not classified.
### 12. Ecological information

**Ecotoxicity**
The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Persistence and degradability**
No data is available on the degradability of this product.

**Bioaccumulative potential**
No data available.

**Mobility in soil**
The product is water soluble and may spread in water systems.

**Other adverse effects**
None known.

### 13. Disposal considerations

**Disposal instructions**
Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Do not allow this material to drain into sewers/water supplies. Dispose of contents/container in accordance with local/regional/national/international regulations.

**Local disposal regulations**
Dispose in accordance with all applicable regulations.

**Hazardous waste code**
The waste code should be assigned in discussion between the user, the producer and the waste disposal company.

**Waste from residues / unused products**
Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions). Dispose in accordance with applicable federal, state, and local regulations.

**Contaminated packaging**
Empty containers should be taken to an approved waste handling site for recycling or disposal. Since emptied containers may retain product residue, follow label warnings even after container is emptied.

### 14. Transport information

**DOT**
Not regulated as dangerous goods.

**IATA**
Not regulated as dangerous goods.

**IMDG**
Not regulated as dangerous goods.

**Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code**
Not established.

### 15. Regulatory information

**US federal regulations**
This product is a “Hazardous Chemical” as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200. All components are on the U.S. EPA TSCA Inventory List.
