SAFETY DATA SHEET

1. Identification
Product identifier 1640 AcryPlex Interior 100% Acrylic Low VOC Satin Enamel (121 222 333 555)
Other means of identification
  Product code 1640-121, 1640-222, 1640-333, 1640-555
Recommended use Architectural Coating, Interior.
Recommended restrictions None known.
Manufacturer/Importer/Supplier/Distributor information
  Company name Kelly-Moore Paint Co., Inc.
  Address 987 Commercial St., San Carlos, CA 94070
  Telephone 1-800-874-4436
  E-mail TAlvarez@kellymoore.com
  Contact person Tiffany Alvarez Gonda
  Emergency phone number CHEMTREC: 1-800-424-9300

2. Hazard(s) identification
Physical hazards Not classified.
Health hazards Sensitization, skin Category 1A
OSHA defined hazards Not classified.
Label elements

Signal word Warning
Hazard statement May cause an allergic skin reaction.
Precautionary statement
  Prevention Avoid breathing mist or vapor. Contaminated work clothing must not be allowed out of the workplace. Wear protective gloves.
  Response If on skin: Wash with plenty of water. If skin irritation or rash occurs: Get medical advice/attention. Wash contaminated clothing before reuse.
Storage Store away from incompatible materials.
Disposal Dispose of contents/container in accordance with local/regional/national/international regulations.
Hazard(s) not otherwise classified (HNOC) None known.
Supplemental information None.

3. Composition/information on ingredients
Mixtures

<table>
<thead>
<tr>
<th>Chemical name</th>
<th>CAS number</th>
<th>%</th>
</tr>
</thead>
<tbody>
<tr>
<td>Titanium dioxide</td>
<td>13463-67-7</td>
<td>&lt; 25</td>
</tr>
<tr>
<td>Hexanedioic Acid Dihydrazide</td>
<td>1071-93-8</td>
<td>&lt; 1</td>
</tr>
<tr>
<td>5-Chloro-2-methyl-2,3-dihydroisothiazol-3-one and 2-Methyl-2,3-dihydroisothiazol-3-one (3:1)</td>
<td>55965-84-9</td>
<td>&lt; 0.1</td>
</tr>
</tbody>
</table>

Composition comments All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.
4. First-aid measures

Inhalation: Move to fresh air. Call a physician if symptoms develop or persist.
Skin contact: Remove contaminated clothing immediately and wash skin with soap and water. In case of eczema or other skin disorders: Seek medical attention and take along these instructions.
Eye contact: Rinse with water. Get medical attention if irritation develops and persists.
Ingestion: Rinse mouth. Get medical attention if symptoms occur.
Most important symptoms/effects, acute and delayed: May cause an allergic skin reaction. Dermatitis. Rash.
Indication of immediate medical attention and special treatment needed: Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.
General information: Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Wash contaminated clothing before reuse.

5. Fire-fighting measures

Unsuitable extinguishing media: Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical: During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters: Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire fighting equipment/instructions: Move containers from fire area if you can do so without risk.
Specific methods: Use standard firefighting procedures and consider the hazards of other involved materials.
General fire hazards: No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures: Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Avoid breathing mist or vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.
Methods and materials for containment and cleaning up: Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.
Environmental precautions: Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.

7. Handling and storage

Precautions for safe handling: Avoid breathing mist or vapor. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.
Conditions for safe storage, including any incompatibilities: Store in original tightly closed container. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Occupational exposure limits: No exposure limits noted for ingredient(s).
Biological limit values: No biological exposure limits noted for the ingredient(s).
Appropriate engineering controls: Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.
Individual protection measures, such as personal protective equipment:
Eye/face protection: Use safety glasses, goggles, or face shield to protect eyes.
Skin protection
  Hand protection
    Wear appropriate chemical resistant gloves. Suitable gloves can be recommended by the glove supplier.
Skin protection
  Other
Respiratory protection
  In case of insufficient ventilation, wear suitable respiratory equipment.
Thermal hazards
  Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations
  Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.

9. Physical and chemical properties
Appearance
  Milky white to colored liquid.
  Physical state
  Liquid.
  Form
  Liquid.
  Color
  Various.
Odor
  Slightly ammoniacal.
Odor threshold
  Not available.
pH
  7 - 10
Melting point/freezing point
  Not available.
Initial boiling point and boiling range
  Not available.
Flash point
  Not available.
Evaporation rate
  < 1 (n-BuAc=1)
Flammability (solid, gas)
  Not applicable.
Upper/lower flammability or explosive limits
  Flammability limit - lower (%)
    Not available.
  Flammability limit - upper (%)
    Not available.
Vapor pressure
  Not available.
Vapor density
  > 1 (Air=1)
Relative density
  Not available.
Solubility(ies)
  Solubility (water)
    Moderately soluble
Partition coefficient (n-octanol/water)
  Not available.
Auto-ignition temperature
  Not available.
Decomposition temperature
  Not available.
Viscosity
  Not available.
Other information
  Explosive properties
    Not explosive.
  Oxidizing properties
    Not oxidizing.
  VOC
    0.27 - 0.83 g/L

10. Stability and reactivity
Reactivity Chemical stability Possibility of hazardous reactions
  The product is stable and non-reactive under normal conditions of use, storage and transport.
  Material is stable under normal conditions.
  No dangerous reaction known under conditions of normal use.
Conditions to avoid
  Contact with incompatible materials.
Incompatible materials
  Strong oxidizing agents. Strong acids.
Hazardous decomposition products  Carbon oxides. Metal oxides.

11. Toxicological information

Information on likely routes of exposure

Germ cell mutagenicity

No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

Carcinogenicity

Inhalation of titanium dioxide dust may cause cancer, however due to the physical form of the product, inhalation of dust is not likely.

IARC Monographs. Overall Evaluation of Carcinogenicity

Titanium dioxide (CAS 13463-67-7) 2B Possibly carcinogenic to humans.

NTP Report on Carcinogens

Not listed.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1053)

Not regulated.

Reproductive toxicity

This product is not expected to cause reproductive or developmental effects.

Specific target organ toxicity - single exposure

Not classified.

Specific target organ toxicity - repeated exposure

Not classified.

Aspiration hazard

Not an aspiration hazard.

Chronic effects

Prolonged inhalation may be harmful. Prolonged exposure may cause chronic effects.

12. Ecological information

Ecotoxicity

The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Persistence and degradability

No data is available on the degradability of this product.

Bioaccumulative potential

No data available.

Mobility in soil

This product is moderately water soluble and may disperse in soil.

Other adverse effects

None known.

13. Disposal considerations

Disposal instructions

Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.

Local disposal regulations

Dispose in accordance with all applicable regulations.

Hazardous waste code

The waste code should be assigned in discussion between the user, the producer and the waste disposal company.

Waste from residues / unused products

Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).
14. Transport information

DOT
   Not regulated as dangerous goods.
IATA
   Not regulated as dangerous goods.
IMDG
   Not regulated as dangerous goods.
Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code
   Not established.

15. Regulatory information

US federal regulations
   This product is a “Hazardous Chemical” as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.
   All components are on the U.S. EPA TSCA Inventory List.
   TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)
      Not regulated.
   CERCLA Hazardous Substance List (40 CFR 302.4)
      Not listed.
   SARA 304 Emergency release notification
      Not regulated.
   OSHA Specifically Regulated Substances (29 CFR 1910.1001-1053)
      Not regulated.

Superfund Amendments and Reauthorization Act of 1986 (SARA)
   SARA 302 Extremely hazardous substance
   Chemical name          CAS number  Reportable quantity (pounds)  Threshold planning quantity (pounds)  Threshold planning quantity, lower value (pounds)  Threshold planning quantity, upper value (pounds)
   Ammonia, anhydrous     7664-41-7  100                        500                        
   SARA 311/312 Hazardous chemical
      Classified hazard categories
         Respiratory or skin sensitization
      SARA 313 (TRI reporting)
         Not regulated.

Other federal regulations
   Clean Air Act (CAA) Section 112 Hazardous Air Pollutants (HAPs) List
      Not regulated.
   Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130)
      Not regulated.
   Safe Drinking Water Act (SDWA)
      Not regulated.
